

Low wattage - LWP range

Designed to provide background heating to applications where space is at a premium and low running costs are important.

Features

- Low wattage ensures the minimum energy consumption for low running costs
- Feet included for freestanding use
- Choice of heat settings*
- 24 hour programmable timer*
- On/Off switch
- 3 year guarantee
- Colour: white
- Overheat safety cut-out
- Freestanding or wall mounted

**TI models only*

Comfort. By design

Low Wattage Portable Panel Heater

Low wattage - LWP range

Technical Specification

24-hour Programmable Timer

The DXLWP400ti and ARLWP800ti feature a 24-hour timer which enables daily heating needs to be programmed in advance. A manual override enables the heater to provide instant heat during an "off" period without affecting the pre-set programme.

Model	Loading	Heat Settings	Timer	Height (With Feet)	Height (Without Feet)	Width	Depth (With Feet)	Depth (Without Feet)	Weight
DXLWP400	400W	1	No	530mm	500mm	600mm	200mm	30mm	4.6kg
DXLWP400ti	400W	1	Yes	530mm	500mm	600mm	200mm	30mm	4.6kg
DXLWP800	800W	1	No	530mm	500mm	800mm	200mm	30mm	5.9kg
ARLWP800ti	800W	3	Yes	530mm	500mm	800mm	200mm	30mm	5.9kg

Low Wattage Portable Panel Heaters

Bathrooms

Any electrical appliances installed in a bathroom should be fitted by a competent electrician in accordance with the current I.E.E. Regulations. Portable heaters are NOT suitable for use in a bathroom. Unless otherwise specified, heaters that can be permanently fixed have to be mounted so that any controls cannot be reached by a person using a bath or shower. This restriction does not apply to Dimplex heated towel rails, which do not have controls.

Safety

Dimplex products are designed to comply with EN60335 the British Standard covering the safety requirements of electric heating appliances, and momentary contact with any part of the heater should not cause injury. However, in order to be effective, heaters or towel rails of any type do get hot especially (if applicable) around the air outlet grille. Therefore if aged or infirm persons, or young children, are likely to be left unsupervised in the vicinity of a heater we advise that precautions should be taken. We recommend that a guard is fitted around the heater, as is normal with many types of heating appliances in similar circumstances, to ensure contact with the heater is avoided and objects cannot be inserted into the product. Heating appliances should never be covered or positioned where objects may fall onto them.

Specifications

Dimplex policy is one of continuous improvement. The company therefore reserves the right to alter specifications without notice. Although every care is taken in the reproduction of product finish in this brochure, the colour photographs should be taken as a guide only. This information is correct at the time of printing. You are advised to consult your dealer before purchasing.

Plugs

All portable appliances are supplied with a fitted plug.

British Electrotechnical Approvals Board - BEAB Approved

The mark of the British Electrotechnical Approvals Board signifies that the appliance bearing it has been produced to the stringent safety requirements for domestic electrical appliances as laid down in EN60355.

CE Mark

Products carrying the CE mark comply with European safety standards and the European Standard for electromagnetic compatibility.

Installation Guidance

This information is designed to assist you with your choice of Dimplex products and it is not intended as an installation guide. For safety, products should only be installed by a competent person, in accordance with current regulations and the manufacturers instruction. If you require advice concerning the installation of our products – especially where the installed dimensions may be critical and the location of the product – please consult your supplier.

Dimplex, Millbrook House, Grange Drive, Hedge End, Southampton, Hampshire, SO30 2DF
