

## FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long service life.
- **1.12 in Shaft Diameter:** Provides a precise fit for shafts, enhancing stability and performance.
- **1.37 in Outside Diameter:** Ensures compatibility with a wide range of housings, facilitating easy integration.
- **2 in Length:** Offers optimal surface area for load distribution, reducing wear and tear.
- **Self-lubricating:** Minimises maintenance requirements and enhances operational efficiency.

## RS PRO Sintered Bronze Plain Bearing, 1.12 in Shaft Diameter

RS Stock No: 558-538

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion support. With a shaft diameter of 1.12 inches, it provides excellent load distribution and reduced friction, making it ideal for various industrial settings.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.12 in

## Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	1.37 in
