## DESCRIPTION

### BOX OF 13 WELDER TOOLS

#### 3 GOOD REASONS TO CHOOSE THIS COMPOSITION

**Controlled preparation:** The set of marking/deburring tools (scribe, punch, chisel, files) provides the necessary precision for clean adjustments and edges ready for welding right from the first pass.

**Intervention autonomy:** The soldering iron and crimping pliers for pre-insulated terminals ensure quick touch-ups and reliable restoration of electrical connections on the workbench or equipment.

**Professional finish:** The scratching hammer, wire brush, and files complete the job with an effective cleaning of slag and a neat weld bead, immediately ready for inspection or painting.
