First Aid

Product Description

This First Aid Guidance Leaflet is suitable for offices, schools, building sites and other workplaces where there is a risk of accidents happening. This handy guidance leaflet offers readers advice on basic first aid principles, helping them record in the right way in the event of an emergency.
The leaflet is up to date with the latest first aid protocols, including how to deal with unconsciousness, resuscitation, bleeding, broken bones, eye injuries and burns.
Thanks to its easy to read design and short length, this is a great resource for educating and reminding employees how to keep safe in the workplace.
The first aid leaflet also includes a section on effective record keeping, helping staff become familiar with the accident book. It is a requirement of the HSE (Health and Safety Executive) that all accidents in the workplace are recorded. This guidance leaflet helps to ensure your accident book remains correctly updated.
