Highlights

Rubber resin adhesive sticks quickly to a variety of materials, including fiberboard

Tape resists nicks, abrasions, moisture and scuffing for long lasting hold

Backing conforms around edges and rough areas for a tight seal

Resists edge tears and splits to help keep contents secure

Available in custom printing for security and/or branding

Scotch® Box Sealing Tape 371 securely closes a wide variety of box and carton materials, including corrugated fiberboard. The moisture-resistant polypropylene backing resists abrasion, chemicals, and scuffing to hold strong throughout the shipping process. It easily conforms around edges and on rough surfaces to provide a lasting hold.

This tape is suitable for use on regular slotted containers (RSC) weighing up to 70 lbs. Scotch® Box Sealing Tape 371 features a biaxially oriented polypropylene backing with pressure-sensitive rubber resin adhesive and offers good edge tear and split resistance. It complies with environmental considerations of ASTM D1974-92.

Medium duty sealing tape, also known as packing tape or adhesive tape, is designed to securely close regular slotted containers (RSC) and packages used for moving, shipping and distribution. The tape's durability and high hold works especially well on challenging recycled corrugate and fiberboard. Because it is economical and reliable, medium duty sealing tape is popular with manufacturers of food and beverages, sporting goods, piping, metal fabrications, automotive parts and furniture.

Details

Adhesive Type	Hot Melt
Applications	Automated Carton Sealing, Box Closure, Branding
Backing (Carrier) Material	Polypropylene Film
Backing (Carrier) Thickness (Metric)	0.03 mm
Brands	Scotch
Core Size (metric)	76.2 mm
Elongation at Break	160.0 Percent
Industries	MRO, General Industrial, Food and Beverage, Medical, Print, Paper, Electronics
Performance Level	General Purpose
Product Color	Transparent
Product Type	Packaging Tape
Tensile Strength (metric)	385.5 N/100mm
Total Tape Thickness without Liner (metric)	0.05 mm
