

Features

- Made from 100% recycled Material
- Ideal for use construction environments
- Packed in Folds for easy distribution
- 90L capacity

RS PRO 60L Heavy-Duty Asbestos Sacks, Natural, Pack of 100

RS Stock No.: 202-2239

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Made from 100% recycled content, our 60L natural asbestos sacks support environmental responsibility while meeting strict hazardous waste disposal standards.

These sacks carry the UN 3323 accreditation mark, meeting the required standards for asbestos waste packaging. These sacks are intended for use as the outer containment layer, following government regulations for double-bagging asbestos.

Double-Bagging Compliance

To comply with Control of Dangerous Goods (CDG) regulations:

- 1. Waste must first be placed in a red UN-approved asbestos sack with CDG hazard symbols and asbestos code markings.*
- 2. The red sack (202-2240) is then securely sealed and placed inside the slightly larger natural/clear asbestos sack (202-2239) before being sealed again.*

This process ensures proper identification, containment, and handling of hazardous materials.

General Specifications

Type	Heavy Duty Asbestos Sack
Colour	Clear
Material	Polythene
Capacity	90L
Packaged	Packet
Compostable	No
Quantity	100
Applications	Construction and building

Mechanical Specifications

Width	600mm
Length	914mm
