

# NitoPren® 717

## APPLICATION

- › chemical industry
- › pharmaceuticals industry
- › metal working and finishing
- › printing industry
- › laboratories

## QUALITIES AND ADVANTAGES

- › high resistance against a variety of hazardous substance groups
- › good grip when handling wet and oily parts
- › 2-layer system
- › high mechanical resistance

|                      |                                                                                                                                                                |

## FEATURES

- › AQL < 0,65
- › free from natural latex
- › excellent anatomical design
