The can must be hold vertical and moved steady from side to side or up and down. Do not turn upside-down or shake during use.

Properties

- purified gas under pressure
- for cleaning of electronics, photographic and optical equipment
- pressure 6 bar

TECHNICAL DATA SHEET

TL-676 Compressed air

Technical and physical data

Partnumber	20603
Packing	spraycan
Contents	300 ml
Weight	366 g
Propellant	HFA
Density	1,225 g/ml
Pressure	6 bar
Emptying rate	1,433 g/sec
