

## Actuating elements

## Features

- Easy installation
- Certified for zones 1 and 21
- High IP degree of protection

## Description

A large number of variants and versions of actuating elements are available for the ComEx control and indicator units. All actuating elements are made of high-quality thermoplastic and conform to the IP 65/IP 66/IP 67 type of protection.
To complete the actuating elements, there are useful accessories such as e. g. label holders, marking tags, metal shroud or nut wrench.
Actuating elements with NBR sealing for increased resistance to oil are available too.
The actuating elements are mounted quickly and easily onto the ComEx control and indicating devices. Use in Zone 1 and 21 is certified.
