ISO :11611

PERFORMANCE Mechanical

- ISO 13688: 2013/ A1: 2021
- ISO 11611: 2015 Classe 2 A1+A2
- In compliance with EU regulation 2016 / 425, Declaration available on: guyard-sa.com

Description :

Natural cowhide pants, patch pocket with a flap, same leather.
Passing loops are provided to allow the passage of a belt and hand passes.
Adjustment by 2 press studs on each side of the waist. Chrome tanning

Recommendations :

Welding, grinding, sandblasting. According to the class indicated.
The garment provides protection against limited flame spread, small projections of molten metal, radiant heat and short-term accidental electrical contact.

Protection limits :

Type of protective clothing used during welding and related techniques class 2.
Do not use for handling chemicals or liquids.
This garment must be worn properly tightened and closed and always in combination with a protective jacket, with protection performance similar to those of the pants, to ensure a complete covering of the fit area.
For adequate full protection against the risks faced by welders, PPE covered by other standards should be worn in addition to protect head, face, hands and feet.

Packaging, care & maintenance, storage :

The garment is packaged to the unit. No special maintenance is recommended. It is advisable to store the products in a place sheltered from light, cool, dry and ventilated.

Before re-use, visually check that the garment is free of defects, holes, tears and wear. If the user suffers from sun burn-like symptoms, UVB rays pass through. The garment should be repaired or replaced and consideration should be given to using additional, more durable protective layers.

Recycling :

Safe destruction by mechanical destruction or incineration.

Marking :

The CE marking affixed to this jacket means that it complies with the essential health and safety requirements of the European regulation 2016/425 on personal protective equipment (PPE).

Safety:

We declare that the product does not contain substances at levels known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use. Its design does not cause any irritation or gene to the wearer.
