

FEATURES

- **Sintered Bronze Material:** Provides superior strength and wear resistance, ensuring long-lasting performance.
- **40 mm Length:** Suitable for various applications, offering versatility in design.
- **40.06 mm Outside Diameter:** Ensures a precise fit for optimal functionality.
- **29.98 mm Shaft Diameter:** Compatible with standard shaft sizes for easy integration.

RS PRO 40 mm Sintered Bronze Plain Bearing

RS Stock No: 518-203

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO plain bearing is designed for applications requiring smooth and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and performance in demanding environments. Ideal for use in machinery and equipment where low friction and high wear resistance are essential.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	29.98 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	40.06 mm
