The World's Toughest Shredders®

Stop worrying about managing sensitive information. We can help. Our line of shredders ensures your documents and files are unrecoverable. Destroyed. Gone. For the utmost security, rely on the world's toughest shredders, the first time, every time. Ours.

Where will the shredder be used?

Office & Departmental

Our commercial grade shredders are ideal for large offices with multiple users, feature continuous run times for non-stop shredding and are engineered for heavy usage.

5+ users
10+ users

Powershred® 485Ci

Small Office

Our small office shredders are ideal for up to 5 users who handle confidential information, feature up to 30 minute run times and are engineered for medium/heavy usage.

1-3 users
3-5 users

Powershred® LX220

Home Office & Deskside

Our personal shredders are ideal for individual users handling confidential information in the office or home, feature sheet capacities up to 12 sheets and are engineered for light/medium usage.

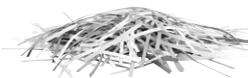

1 user

Powershred® LX85

What level of security do you need?

Protect your confidential documents by making them impossible to read or recover. Smaller particles means more security and more efficient use of the shredder's bin capacity. This results in less emptying of the machine allowing you to shred more.

Strip-Cut	Cross-Cut	Mini-Cut	Micro-Cut	Classified
				
Basic ▶	Higher ▶	Advanced ▶	Superior ▶	Government Approved ▶
P-1 & P-2 ≥100 strips per A4 sheet	P-3 & P-4 ≥300 particles per A4 sheet	P-4 ≥1000 particles per A4 sheet	P-5 ≥2000 particles per A4 sheet	P-6 & P-7 ≥6000 particles per A4 sheet
For low-risk non-confidential data. Not recommended for business environments or personal information	For medium-risk sensitive personal or confidential data like delivery notes with address and client information	For higher-risk sensitive personal or confidential data like account numbers and invoices	For highly confidential data like balance sheets, strategy documents and patents etc..	Ultimate security for top secret and classified documents

What feed type would suite your needs?

Manual	Automatic	Hybrid
		
The ideal solution for employees to shred their confidential documents instantly - without unnecessarily leaving paper on the desk or at the printer.	Perfect if you prefer to do all your shredding in one go. Just load up press play and walk away!	Combine the best of automatic and manual shredding experience in one machine - Shred instantly and allow you to get on with your work while shredding is in progress.

What benefits would you like to get from your shredder?

JAM PREVENTION

No matter what jam technology you choose, Fellowes is committed to a hassle-free shredding experience.

 **100% JAM PROOF**
Eliminates paper jams and powers through tough jobs

 **AUTO REVERSE**
Stops and reverses paper if a jam occurs

CONVENIENCE

Features which make your day run smoother.

 **IntelliBAR™**
with Patented Responsive Technology
Prevents interruptions and maximise paper throughput

 **SILENT SHRED™**
Minimises noise disruption - ideal for shared workspaces

SAFETY & SECURITY

Protecting identities and families with intelligent safety features.

 **SAFESENSE TECHNOLOGY™**
Stops shredding when hands touch the paper opening.

 **SAFETY LOCK**
Disables shredder for added safety

 **SMART LOCK™**
Allows the user to lock the shredder to prevent access to documents when shredding

 **SLEEP MODE**
Shuts down the shredder after 2 minutes of inactivity

Office & Departmental Shredders

Our commercial grade shredders are specially engineered for large offices with multiple users, feature continuous run times for non-stop shredding and high sheet capacities for ultimate productivity. Innovative designs and proprietary features make Fellowes® shredders more powerful, safer and hassle-free. Behind every Fellowes® shredder is the commitment to performance optimized for a busy workplace.

HOW DO YOU SHRED?

You prefer to shred when you need to rather than letting documents accumulate to be shredded in a single session

Manual

You accumulate large volumes of paper and need to get it shredded in one go. You need to get on with your work whilst it is in progress

Automatic

AutoMax™ shredders offer a truly walk-away shredding experience, automatically shredding stacks of paper at the touch of a button. They offer the convenience of allowing the user to continue working whilst shredding is in progress.

Perfect Lamination Every Time

Sometimes, being your best means looking your best. That's why we offer simple ways to make your documents look amazing. Polished. A reflection of you. From binding to laminating, our products are designed to make it easy to make a great impression.

Where will the laminator be used?

Office

Frequent use

Small Office

Moderate use

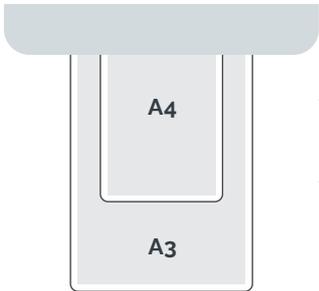

Personal & Home Office

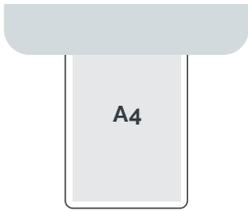

Light use

What size documents do you want to laminate?

A3 Laminator
Laminates A3, A4, A5, A6, photos & smaller sizes and for fast A4 laminating with SuperQuick pouches

A4 Laminator
Laminates A4, A5, A6, photos and smaller sizes

What is the maximum pouch thickness you would like to laminate?

The more microns, the thicker the pouch and the more rigid and robust the finished result. The thicker the pouches accepted, the more versatile the machine and the more applications for which it can be used.

What benefits would you like to get from your laminator?

Smarter performance means perfect results without the wait. That's why we've developed laminators with intuitive turnkey designs and innovative features. Enhance productivity with effortless operation and experience superior laminating quality every time.

Detects pouch thickness and self-adjusts to the optimal laminating setting

Ready to laminate in as little as 30-60 seconds every time

Clear Path mechanism, and pouch reverse / release features prevent jams when used with Fellowes pouches

Powers down after periods of inactivity, reducing energy consumption

Reduces the surface temperature of the laminator, ensuring it is safe to touch

Allows immediate, manual switching between different pouch thicknesses

Advanced Pouch Tracking System

Detects potential jams, stops laminating and allows user to reverse and realign the pouch

Feed IQ

Indicator light tells the user when the laminator is ready to accept the next pouch

Office Laminators

Our truly automatic office laminators are designed for multiple users in the office or school environments. Featuring high performance robust systems, these laminators offer fast speed and ensure perfect results and jam free performance every time.

Ultra-fast!

Laminates an A4 pouch in as little as

Laminating Pouches

Preserve and present your documents with the highest quality pouches to meet all your laminating needs. Laminate faster and easier while preserving documents longer with jam-free ImageLast™ pouches. Increase productivity with SuperQuick™ pouches. With a variety of high quality thermal pouches, no laminating project is too big or small. No matter what the laminating task, our full line of laminating supplies has you covered.

ImageLast™ Pouches

The unique ImageLast™ direction and quality mark ensures pouches are inserted correctly and disappears after lamination. You can be sure that your pouch has been perfectly sealed when all ImageLast™ marks have disappeared.

One Machine

Bind | Staple | Hole Punch

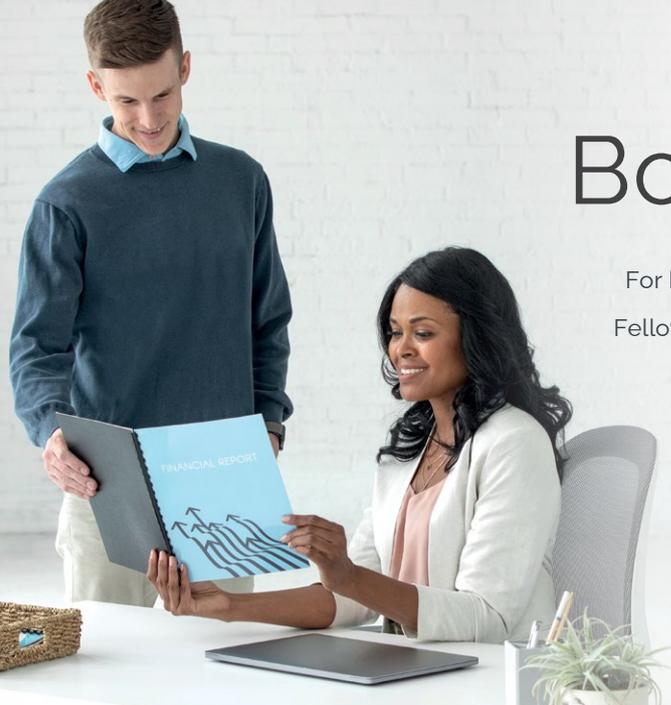

Lyra™ - Your All-in-One Binding Centre

Fellowes new Lyra™ 3-in-1 binding centre was thoughtfully designed with a patent-pending, all in one solution for comb binding, stapling and 2 & 4 hole punching. Bind your documents with ease using our Fast Loading, Perfect Alignment and EasyPress™ Stapler features, for PERFECT RESULTS!

One machine to enhance document binding productivity and simplicity!

Bound to Impress

For high quality binding results, the cutting edge features of Fellowes binding machines offer perfect binding performance that's faster and easier. Just align, punch and bind.

What type of binding machine is best suited to your needs?

COMB BINDING

The most popular and economical binding system. It's practical, easy to use and very flexible.

WIRE BINDING

Stylish, durable wire binders with unique, user-friendly features. Gives your document a stylish, top-quality finish that is permanent and secure.

THERMAL BINDING

A quick, easy way to give any document a perfect "book" finish

Where and how often will the binder be used?

Office

Frequent use

Small and Home Office

Moderate use

Personal and Home

Light use

Manual or electric document punching?

Electric Punching

Provides ultimate ease of use. Electric punch button makes it easier to punch through large documents and also work through large quantities of documents quickly.

Manual Punching

Strong metal punch handle on Fellowes machines makes it easy to punch through documents by hand.

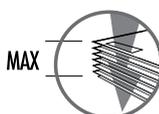

What size documents will you bind?

Binding Capacity

The higher the binding capacity, the larger the document you can bind.

Punch Capacity

The higher the punching capability of the binder, the quicker the process. (Comb & Wire only).

Max. Element Size

Maximum comb diameter suitable for use with the binder. (Comb & Wire only).

Office Binding Machines

Powerful, feature-rich binding solutions deliver maximum results with ease. A perfect combination of quality and productivity for a large office or school.

Why Use A Cutting System?

Cutting machines enable the user to trim and cut large amounts of paper in one go. They are operated using one smooth movement which ensures precision cutting and a professional finish. They save time and effort and are an essential tool when working with large stacks of paper, books, and laminated documents. They are also ideal for print-outs of digital photographs.

What type of cutting system is best suited to your needs?

ROTARY TRIMMERS

Ideal for cutting smaller stacks of paper. The round blade enclosed in a cutting head slides along a metal guide bar to create straight cuts. Widely used by photographers, graphics studios and schools.

GUILLOTINES

Ideal for cutting thick stacks of paper. A premium solution, designed for high-volume cutting. The leverage handle is brought down in one motion to cleanly cut through paper.

Where and how often will the trimmer / guillotine be used?

Office

Frequent use

Small and Home Office

Moderate use

Personal and Home

Light use

Which of the following features are required?

Features which will enhance productivity and creativity

SAFECUT™ CARTRIDGE
Retractable safety blade

SAFECUT™ GUIDE
Precision LED safety guide

SAFECUT™ GUARD
Protective safety guard

SAFECUT™ BLADE
Encapsulated safety blade

4 BLADES
Supplied with straight, wavy, perforated and fold blade types

Office Trimmers & Guillotines

Clean, sharp and precise, paper cutters from Fellowes make it easy to cut paper to exact sizes safely. A paper trimmer creates a precise finish and our guillotines perfect for high volume cutting.

FELLOWES GIVE PROGRAM

In the effort to expand our support of community and culture through philanthropy, Fellowes has established the GIVE program. GIVE is dedicated to building local and global partnerships which address humanity's greatest needs. The programs' guiding principles align with our strong values as a company and are the hearts of our people. GIVE is committed to supporting initiatives in four key areas: Social Services, World Aid and Development, Education and Cancer Research. We are honored to work as a team in building strong communities, improving lives, and providing a better tomorrow for our world today.

SOCIAL SERVICES

GIVE reaches out to our local communities, lending volunteer support to those in need.

WORLD AID & DEVELOPMENT

GIVE sponsors causes around the world, aiding countries in need.

GIVE™

EDUCATION

GIVE builds greater opportunities for youth through education.

CANCER RESEARCH

GIVE supports medical research funding in the fight against life-threatening diseases.
