

FEATURES

- **60W Power Rating:** Provides sufficient power for quick heating and efficient soldering.
- **550°C Soldering Tip Temperature:** Allows for precise temperature control, ensuring optimal soldering conditions.
- **Electric Power Type:** Offers consistent and reliable power supply for uninterrupted operation.
- **Compatible with 0631071 Soldering Station:** Ensures seamless integration with existing equipment.
- **Type G and Type E Plug Types:** Provides versatility for use in different regions.
- **Standards Approved:** Complies with ANSI-ESD S20.20:2021, CE, REACH, RoHS, and UKCA for safety and quality assurance.

RS PRO 60W Electric Soldering Iron, 550°C Temperature

RS Stock No: 631-078

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 60W Electric Soldering Iron is designed for precision soldering tasks, offering reliable performance for both professional and hobbyist applications. With a high power rating and adjustable temperature, it ensures efficient and effective soldering for a variety of electronic components.

General Specifications

For Use With	0631071 Soldering Station
Power Type	Electric
Product Type	Soldering Iron
Soldering Tip Temperature	550 °C
Sub Type	Soldering Iron

Electrical Specifications

Input Voltage	230 V
Plug Type	Type G, Type E
Power Rating	60 W

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, CE, REACH, RoHS, UKCA
