

Labtec® Pulse 485

Need more bass for an affordable price? With a unique Max-X™ band pass and ported subwoofer design, Labtec's Pulse 485 2.1 speaker system delivers the advanced bass response you're looking for. In addition to great bass, the Labtec Pulse 485 includes simple bass and volume controls for a customizable listening experience. The flat-panel satellite speaker design not only looks great, but it also helps save valuable desk space.

Features:

- Max-X™ high-excursion subwoofer driver creates clean, deep bass
- Band-pass ported subwoofer with wood cabinet delivers solid, distortion-free lows
- Sleek, thin profile design optimizes sound while saving space
- Three-piece system hooks up easily to PCs, CD and MP3 players
- Separate volume and subwoofer level controls provide personal sound adjustment
- AC power adapter and color-coded audio cables included
- One-year limited warranty
