

Description

Wire rope lubricant spray applied dressing with excellent corrosion protection and lubricating characteristics. It has high penetrating ability, ensuring penetration of the concentrate through to the lay core rather than simply affording surface protection. Once at the core, the product has good dewatering and importantly, rust prevention capabilities - Important characteristics for those cable used out of doors.

- Gives superior protection against corrosion
- Possesses high penetrating abilities
- Reduces rope wear through high anti wear and extreme pressure additives
- Light surface film reduces dirt attraction

Directions for use

Shake well before use. Hold in an upright position, spraying from a distance of 30cm.

UFI: EQW6-50XA-V00H-FYP8

DANGER

Contains: White spirit, low viscous.
Contains: amine phosphate. May produce an allergic reaction. Extremely flammable aerosol. Pressurized container: May burst if heated. May cause damage to organs through prolonged or repeated exposure. Harmful to aquatic life with long lasting effects. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/ vapors/spray. Avoid release to the environment. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

ROPE LUBE

Rope & cable lubricant spray

Possesses high penetrating abilities
Superior protection against corrosion
Good dewatering properties
Light surface film reduces dirt attraction
High anti-wear & extreme pressure (EP) qualities
Penetrates into rope core for reduced wear
Repels water
All-weather protection
No CFC propellants - Ozone friendly

High performance aerosol range

500ml e
