

AD-1377, AD-1522

Hand-operated crimp tools

AD-1377 Crimp Tool

The Raychem AD-1377 crimp tool fits all MiniSeal crimp barrels. It also meets Mil specification M22520/37-01. A calibration verification gauge, AD-1386, is also available for the AD-1377. The gauge meets Mil specification M22520/39-01

AD-1522 Crimp Tool

The Raychem AD-1522 crimp tool crimps all DuraSeal crimp products. It has a preset crimp depth that provides the optimum combination of tensile strength and insulation integrity in the finished splice.
