- EN131 Professional

RS PRO 7 Tread Professional Aluminium Stepladder with Twin Handrails and Tool Tray, EN131

RS Stock No.: 0827599

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 7- Tread Stepladder is designed for safe, comfortable, and efficient access in professional environments. Featuring twin handrails for enhanced stability and confidence during ascent and descent, this stepladder also includes an integrated multi- function tool tray rated to 5 kg, allowing tools and accessories to be kept within easy reach.

Manufactured to EN131 Professional standards, this stepladder is suitable for use in offices, retail spaces, education facilities, and similar light industrial environments. The compact footprint ensures stability while remaining easy to position and store.

Please note: The handrails are supplied flat- packed and must be assembled before first use.
