

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity.
- **1 in Outside Diameter:** Ensures compatibility with standard housings.
- **0.74 in Shaft Diameter:** Designed for precise fit and reduced friction.
- **Compact Design:** Facilitates easy installation in tight spaces.
- **Self-Lubricating:** Reduces maintenance needs and enhances performance.

RS PRO 1 in Plain Bearing, Sintered Bronze

RS Stock No: 558-516

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a robust plain bearing designed for smooth and efficient rotational movement. Crafted from high-quality sintered bronze, this bearing is ideal for applications requiring reliable performance and durability. Its compact size makes it suitable for various industrial uses, ensuring optimal functionality in machinery and equipment.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in
