

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **1-1/2 in Shaft Diameter:** Compatible with standard shafts, facilitating easy integration into existing systems.
- **1.88 in Outside Diameter:** Offers a snug fit for secure installation and operation.
- **Self-Lubricating:** Reduces maintenance requirements and enhances operational efficiency.

RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-843

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's primary benefit is its ability to reduce friction between moving parts, enhancing the lifespan of machinery.
