

# ABUS IP video surveillance 2MPx Wi-Fi PTZ dome camera

Art. no. TVIP82560

Page 1 of 2

- 2MPx Wi-Fi PTZ camera for indoors and outdoors
- Full HD resolution (1920 x 1080 pixels) at 25 fps and 32,6° - 100,5° viewing angle for more detail in the picture
- WDR (120 dB) for more detail even at backlighting and strong contrasts
- Continuously pan, tilt and zoom via app or browser: for a 360° panoramic view at focal lengths of 2.8-12mm and 4x optical zoom (motorized zoom lens)
- Motion detection via software directly in the camera for low storage requirements and fast finding of the desired recording
- H.265 Plus zum Komprimieren der Videodaten und 6x länger Aufzeichnen
- Integrated IR LEDs for best visibility at night/darkness, up to 20 meters
- Easy mobile access with the ABUS Link Station App - no router settings required
- Sends pictures via e-mail or FTP
- PoE (Power over Ethernet)-fähig

## Monitoring in any wind and weather conditions

With a high, detailed resolution of 1920 x 1080 pixels, the TVIP82560 2MPx WLAN PTZ dome camera records 25 images per second. The robust housing with IP66 protection means the camera is ready for any weather. The viewing and recording area can be steplessly controlled manually, can be swivelled 355°, tilted 90° and automatically controlled with up to 8 tours and 300 positions. For 360° all-round monitoring, incl. 4x optical zoom (viewing angle 32.6°-100.5°).

## Ideal: for large areas

The PTZ camera is ideal for monitoring large areas, such as gardens or large car parks, also thanks to WDR with 120 dB for backlight compensation. Operation is via PoE or WLAN as required. The integrated microSD card slot is used for recording directly in the camera and for playback via browser or app. Thanks to H.265 Plus for strong compression of the video data, the camera records 6x longer than H.264. Motion detection ensures lower memory requirements in advance. The camera also has integrated infrared LEDs for a view of up to 20 meters in darkness/night (depending on the location).

Access to live images & recordings: secure and easy

The camera simply connects directly to the ABUS Link Station app on the smartphone or tablet via an encrypted end-to-end connection (E2E) - and without any settings on the router. With the Lite version of the app, up to 60 minutes of data stream (live view/playback) per month via Internet or Wi-Fi are completely free. Or with the ABUS Link Station Pro: Buy once and access unlimited data forever.
