

Dräger X-plore® 8000 Face Shield Head Pieces for PAPR and Airline Systems

The Dräger X-plore® 8000 face shield effectively protects your face and helps you to breathe safely. Giving you increased respiratory protection, it is an integral part of the Dräger X-plore® 8000 powered air-purifying respirator systems and Dräger X-plore® 9300 compressed air line system.

Highest respiratory protection
Protection class TH3 (in combination with X-plore 8000 system) / 4A (in combination with X-plore 9300)

Wide field of vision
Optimal eye protection and easy handling due to the large flip up visor

Polycarbonate visor
A clear view, also during tough jobs – thanks to strong scratch- and impact-resistant polycarbonate

Lightweight head piece
Comfortable to wear due to a well-balanced and ergonomic design

Neck adjustment ratchet
Quickly and easy to adjust to your individual head size

Protective foils
Protects the visor from dirt and can easily be removed after work

Hygienic
Easy and quick cleaning with Dräger cleaning and disinfection agents, also suitable for machine washing

Benefits

The Dräger X-plore 8000 System: Designed for full compatibility

No matter how tough the conditions, the X-plore 8000 system from Dräger provides you maximum respiratory protection without increased breathing resistance, even during long periods of time. Depending on the system configuration, it can also offer protection for the head, face (including eyes), and hearing.

The system consists of either an X-plore 8500 or 8700 powered air-purifying respirator for applications dependent on the ambient air or the X-plore 9300 compressed air line system for working with an independent air supply. Both are combined with a headpiece such as an X-plore 8000 face shield, helmet, hood or X-plore mask (X-plore 9300: only for loose fitting headpieces). The components can easily be combined for different use cases.

No matter which product combination you choose, you can always rely on your equipment for maximum performance.

Dräger X-plore 8000 Face Shield

Comfortable and lightweight protection

The ergonomic design of the face shield ensures optimum weight distribution on the head. Furthermore, it's particularly light and thus offers you a high level of wearing comfort, even during longer uses.

Easy adjustment and handling

The face shield can be individually adjusted: First, you can adjust the head circumference using the ratchet on the back; second the direction of the breathing air outlet near the forehead can be adjusted to make it even more comfortable. Moreover, you can conveniently flip up the visor.

Before use, the face shield is easily and intuitively connected to the respective breathing apparatus via our standard or flexible hose, which you can also use in combination with our X-plore 8000 hoods and helmets.

Optimal vision

For optimal vision on the job, the face shield is fitted with a large visor which is made of impact-resistant polycarbonate. To make the visor even more robust, it includes an anti-scratch and anti-fog coating. Thus the visor can withstand even the most challenging jobs.

Application areas

The face shield is your reliable solution for various application areas, like construction work, cleaning processes, the automotive industry, hospital applications, transportation, grinding, etc.

Dräger X-plore® 8000

Challenging workplace conditions demand reliable solutions. The Dräger X-plore® 8000 powered air-purifying respirator offers a new level of intuitive handling combined with intelligent electronics that provide the high degree of safety your people need to focus on the task at hand.

D-12260-2014

Dräger X-plore® 9x00 and PAS X-plore®

The Dräger X-plore® 9x00 series is designed for light-duty industrial applications and provides comfortable and reliable respiratory protection. Thanks to such features as the unique safe-flow reducer and auto-test function, wearers can enjoy more operating convenience, safety and flexibility.

Related Products

D-24220-2020

Dräger X-plore® 8000 Helmets

Dräger X-plore® 8000 helmets provide effective mechanical head protection combined with maximum comfort. Regardless of whether you are dependent on ambient air or working independently, the helmets are an integral part of our Dräger X-plore® 8000 powered air-purifying respirator systems and Dräger X-plore® 9300 compressed air line device.

D-25013-2020

Dräger X-plore® 8000 Hoods

Dräger X-plore® 8000 hoods are an integral part of our Dräger X-plore® 8000 powered air-purifying respirator systems for work requiring the use of ambient air, and our Dräger X-plore® 9300 compressed air line system for working with an independent air supply. They provide lightweight, comfortable respiratory protection combined with the highest protection category for loose-fitting headpieces.

ST-7497-2005

Dräger X-plore® 6300

The Dräger X-plore® 6300 is the efficient yet low-cost full face mask intended for price-conscious users not wishing to compromise on comfort or quality. This full face mask is the successor to the Panorama Nova® Standard, a mask which has proven itself over decades of use worldwide – redesigned and improved with fresh colours and an integrated barcode.

D-31814-2011

Dräger X-plore® 4700

The Dräger X-plore® 4700 is the robust half mask which offers excellent comfort and outstanding leak tightness for demanding applications. Thanks to the wide range of filters available for protection against gases, vapours and particles, it is ideally suited for use in a variety of industries.
