

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **20 mm Length:** Suitable for applications requiring specific dimensional compatibility.
- **18.04 mm Outside Diameter:** Ensures a precise fit for various housing dimensions.
- **11.98 mm Shaft Diameter:** Compatible with a wide range of shaft sizes, providing versatility in application.
- **Plain Bearing Design:** Simplifies installation and operation, reducing downtime.

RS PRO Sintered Bronze Plain Bearing, 20 mm Length

RS Stock No: 528-301

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in various industrial settings, this bearing provides excellent performance with minimal maintenance. Its primary benefit is the reduction of friction between moving parts, enhancing the longevity of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	11.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	18.04 mm
