

# Reflex® T Plus

## A durable glove offering excellent wet and dry grip

**Reflex® T from Polyco is a seamless knitted para-aramid liner with a crinkle latex palm coating providing excellent grip and good all round protection.**

The cut resistant para-aramid lining provides protection from slashes, cuts and sharp objects. The crinkle latex palm coating as well as providing excellent tear and puncture resistance, also ensures safe handling in both wet and dry environments. The elasticity of natural latex means that it is extremely flexible, which together with the seamless liner and elasticated knit wrist, makes it very comfortable especially in prolonged use. The protective properties of the Reflex® T make it ideal for use in industries where safe handling and good cut protection is needed.

**Case Quantity**  
10 pairs per polybag  
120 pairs per case

### Handling Applications

- Automotive Manufacturing
- Glass Manufacturing
- Sheet Metal Fabrication
