

FEATURES

- **Sintered Bronze Construction:** Provides high strength and resistance to wear, ensuring longevity.
- **3/4 in Length:** Suitable for a range of applications, offering versatility in use.
- **0.5 in Outside Diameter:** Fits standard housings, simplifying installation.
- **0.24 in Shaft Diameter:** Compatible with common shaft sizes, enhancing adaptability.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-158

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing is ideal for reducing friction and wear between moving parts, ensuring smooth operation and extended equipment life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.24 in

Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.5 in
