## 1.25mm & 2.5mm One-click Ferrule Mate Cleaner

### Description:

Grandway provides high quality One-click Ferrule Mate Cleaner for  $\phi$ 1.25mm and  $\phi$ 2.5mm optical ferrules.

As a high precision opponents, even a little contaminants on the optical ferrule can affect the performance of the whole optical transmission system. If a optical ferrule is polluted, it is hard to make it clean again in ordinary ways for the high requirements of the cleaning equipment and the little space the ferrule left for cleaning.

With the One-click Ferrule Mate Cleaner, all the problem can be solved easily.

The cleaner is composed with special cleaning reel, extendable nuzzle and guide cap of specified size. These make the cleaner meet rigorous requirements of the cleaning solution.

The One-click Ferrule Mate Cleaner is absolutely your good partner in optical cleaning solution.

### Features:

- Clean over 95% surface of fiber ferrule with only One Click
- Super long lifetime, over 800 times cleaning
- 2.5mm/1.25 universal ferrule mate connector adapter suitable for SC, FC, ST, LC, and MU and other 2.5mm/1.25mm fiber connectors with PC or APC polishing mode
- Can handle any types of pollution
- Suitable for both male (ferrule) and female (adapter) connectors

### Specifications:

Model		FOC-1.25	FOC-2.5
Dimension	standard	180*17*17mm	
	nozzle extended	215*17*17mm	
Connector Type		all $\phi$ 1.25mm, LC/MU	all $\phi$ 2.5mm, SC/FC/ST/E2000
Cleaning Cycles		800 cycles	
Weight		0.1kg
