RS Pro Magnetic Drilling Machines

RS Stock No: 123-8507

RS Pro magnetic drilling machines are manufactured using high-quality components, for reliability and performance in your choice of application. These compact, lightweight and powerful drills combine style, ergonomics and high precision engineering with unique performance enhancing features. RS Pro magnetic drilling machines are manufactured with a powerful mechanical gearbox optimising the machines performance throughout its capacity range.

Features and Benefits:

- Variable speed control
- Powerful 1100 W motor
- Mechanical clutch protection
- 13 mm drill chuck option
- Weight: 14.kg
- Carry case

RS Pro Magnetic Drilling Machines Options

110 V, RSPRO40/1 = RS stock no: 123-8506

230 V, RSPRO40/2 = RS Stock no: 123-8507
