

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **Compact Design:** With an outside diameter of 0.62 in, it fits easily into confined spaces.
- **Optimised Shaft Diameter:** Designed for a 0.49 in shaft, ensuring a precise fit and smooth operation.
- **High Load Capacity:** Suitable for applications requiring robust support and stability.
- **Low Maintenance:** Requires minimal upkeep, reducing downtime and operational costs.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-164

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. Its compact size makes it ideal for use in tight spaces, providing smooth operation and reduced friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.62 in
