

A0520

Anti-static work glove with specialised coating

A high quality anti-static glove that contains no conductive fibres. The polyurethane coating contains dissipative particles which protect components from static electricity. This nylon liner offers dexterity and comfort without sacrificing mechanical resistance. Ideal glove to protect handled objects.

Features

- ▲ A light, elastic low-lint glove, resistant to deformation and which keeps its shape longer
- ▲ Protects handled objects
- ▲ Breathable back of hand to reduce perspiration
- ▲ Minimal allergy risks
- ▲ Designed for easy movement and continuous wear
- ▲ No irritation by seams in contact with the skin

Certifications

Suitable industries & applications

Industries

- ▲ Automotive
- ▲ Manufacturing

Applications

- ▲ Component and Product Assembly
- ▲ Electrical Engineering and Maintenance
- ▲ Inspection and Quality Control
