

FEATURES

- **1100 L absorbent capacity:** Ensures effective containment of large spills, reducing environmental impact
- **Polyethylene material:** Provides high chemical resistance, enhancing durability and longevity
- **2000 mm length and 1490 mm width:** Accommodates a single IBC, optimising space and safety
- **Yellow colour:** Enhances visibility for improved safety and compliance

RS PRO Spill Pallet, Polyethylene, 1100L Capacity

RS Stock No: 694-329

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO spill pallet is designed for safe and efficient containment of spills and leaks. Ideal for use with a single IBC, it provides a robust solution for managing hazardous liquids, ensuring compliance with safety standards. The pallet's polyethylene construction offers excellent chemical resistance, making it suitable for a variety of industrial environments.
