I-Tack® & I-Tack® Plus

I-Tack® and I-Tack® Plus are specially designed to remove dust from any vehicle surface.

I-Tack® defeats dust at every turn.

The design of I-Tack® makes it ideal for advanced dust removal, working in combination with all paint types to ensure a clean finish free of lint and other residues.

I-Tack® is available with two different levels of tack. I-Tack® has a low tack level, providing ease of use and a smooth performance. I-Tack® Plus has a high tack level, with superior dust acquisition properties.

- Silicone free - No danger of damaging paintwork
- Efficient dust pick-up - Removes dust particles from the surface
- No residue - No need for further cleaning
- Glides easily over the car body - Easy and comfortable to use
- Compatible with all paint technologies - Use the best paint type for the job
- Solvent free - Skin-friendly with no unpleasant smell

Versatile and effective, I-Tack® and I-Tack® Plus provide the tools for practical dust removal.
