## Tork Surface Cleaning Wet Wipes

Article	190594
System	W15 - Handy Bucket Surface Cleaning
Colour	White

The Tork Surface Cleaning Wet Wipes are convenient and efficient for surface cleaning when water is not available, while they protect sensitive surfaces, electronics and processes.

### Key benefits:

- Professional quality for effective surface cleaning
- Its strong texture and high absorbency makes it ideal for removing oil, grease, lubricants and dirt

## Environmental

### Viscose

Viscose fibres are produced from cellulose pulp. Cellulose is dissolved in alkaline solution by a chemical reaction with carbon disulphide and then spun to fibres in an acid spinning bath. The fibres are washed, dried and cut to intended fibre length.

### Tork Wet Wipes

Viscose  
Polyester

### Polyester

Polyester fibre is produced from terephthalic acid and ethylene glycol, which react through condensation to polyester resin. The molten resin is spun to fibres through spinnerets and cooled with air. The fibers are then cut to intended fiber length.

### Packaging

Fulfillment of Packaging and Packaging Waste Directive (94/62/EC): Yes

### Article creation date and latest article revision

Date of issue: 22-11-2019  
Revision date: 25-08-2022

### Production

This product is produced at External mill, CN.
