

## FEATURES

- **Sintered Bronze Material:** Offers high strength and resistance to wear, ensuring longevity and reliability.
- **51.09 mm Outer Diameter:** Fits a wide range of shafts, providing versatility in application.
- **35 mm Length:** Compact design allows for easy integration into various systems.
- **41.97 mm Shaft Diameter:** Compatible with standard shaft sizes, facilitating easy installation.

## RS PRO Sintered Bronze Plain Bearing, 51.09 mm Outer Diameter

RS Stock No: 558-453

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery and equipment, it provides excellent performance with minimal maintenance. The sintered bronze construction ensures durability and resistance to wear, making it suitable for demanding environments.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	41.97 mm

## Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	51.09 mm
