## RS Pro Radiator Key

### Product Details:

#### Radiator Valve Key Set

A set of 2 keys the first of which has three profiles making the tool universal catering for; 3/8 inch and 10mm square section radiator vent plugs and bleed screws, bayonet or internal lug type radiator valves allowing for variations in size, shape and position

Also 12 and 14mm internal hexagon valves, tapered to allow for variations in size  
The second key is a 12mm hexagon cross section with one end profiled for use on bayonet or internal lug type radiator valves and the other end being an air release key for bleeding the air from radiators.
