FREE™ P4

21
TOOLS

Leatherman Free P4 represents years of consumer feedback and engineering testing, giving you the best multipurpose plier experience to date. Each of its 20 tools are held closed by Free's magnetic architecture and open with a push of the thumb (goodbye broken finger nails).

EVOLVED ERGONOMICS

Leatherman Free's completely reinvented platform is designed to feel even more at home in the palm of your hand. Haptic feedback gives confidence that features are locked into place. Tools pop open with a simple push of your thumb—say goodbye to broken fingernails.

MAGNETIC ARCHITECTURE

Leatherman Free's revolutionary magnetic locking system reduces friction when opening and closing tools for a lifetime of use. This also allows smooth, quick access to tools, letting you work with speed and confidence for years.

FREE ACCESS

Leatherman Free places every implement on the outside of the tool, letting you access everything with a single hand. Locking and unlocking is safe and secure thanks to the newly designed cam locks. Leatherman Free lets you keep your eye on the task, not the tool.

OUR WARRANTY: We pride ourselves on offering high-quality products made in our Portland, Oregon, USA factory, which is why we offer our 25-year warranty, so you can be sure your Leatherman will last a lifetime. If you need it fixed, just return it and we'll take care of the repair.
