

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity.
- **Compact Design:** Fits seamlessly into tight spaces with a 0.31 inch outside diameter.
- **Low Friction:** Enhances efficiency and reduces energy consumption.
- **3/4 Inch Length:** Suitable for a wide range of applications requiring specific dimensions.
- **0.18 Inch Shaft Diameter:** Ensures compatibility with standard shaft sizes.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-140

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and low friction performance, making it ideal for various industrial uses. Its compact design with a 3/4 inch length and 0.31 inch outside diameter ensures a perfect fit for precise engineering requirements.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.18 in

Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.31 in
