Product Description

RS PRO Blue Waste Bag is designed specifically for disposal of used absorbents. The slim shape bag is tailor made to fit absorbent pads and socks. The compact size bag prevents the user from overfilling with heavy contents. The used sorbents tend to gain a lot of weight due to the amount of fluid they retain. Using incorrect type of bag may lead to handling issues. The bags are suitable for most industrial fluids, including petroleum and oils. Finished in deep blue.
