

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance requirements.
- **5/8 in Length:** Suitable for compact spaces while maintaining effective load distribution.
- **1 in Outside Diameter:** Ensures compatibility with a wide range of housings and applications.
- **0.74 in Shaft Diameter:** Designed for precise fit and optimal performance in various mechanical systems.
- **Plain Bearing Design:** Offers smooth rotational movement with minimal friction, enhancing the efficiency of machinery.

RS PRO 5/8 in Sintered Bronze Plain Bearing, 1 in OD

RS Stock No: 528-131

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low friction and high wear resistance are essential, this plain bearing offers durability and performance in demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	1 in
