Datasheet

RS Pro 6 Port MTP to LC Duplex Cassette, OS1, OS2 Optical Fibre Type

RS Stock No: **738-8142**

Product Details

RS Pro 6 port MTP to LC duplex cassette module provides a secure transition between MTP and LC discreet connectors. It is used to interconnect MTP backbones with LC patching. This module allows for rapid deployment of high density data centre infrastructure, as well as improves troubleshooting and reconfiguration during moves, adds and changes. Its typical application include data centre infrastructure, storage area networks and parallel optics.

Features and Benefits

- Provides secure transition between MTP and LC connectors
- Used to interconnect MTP backbones with LC patching
- Can be mounted in 1U or 3U multi slot chassis
- Typical applications include data centre infrastructure, storage area networks and parallel optics

**Specifications:**

Accessory Type	Cassette
Connector Type	MTP to LC
Dimensions	129 x 132.5 x 30 mm
Height	30 mm
Length	129 mm
Number of Ports	6
Optical Fibre Type	OS1, OS2
Simplex/Duplex	Duplex
Width	132.5 mm
