RS PRO Soldering Iron Tips Series

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO Soldering Iron Tips Series

RS PRO offers a comprehensive range of soldering tips to complement their soldering station. Soldering iron tips are available in a variety of sizes, diameters and shapes. Every soldering tip is designed for a specific application.

Those soldering tips are for use with the digital soldering station article **492-303**.

Features and Benefits:

- Soldering tip and heating element are integrated, heating up quickly.
- High Thermal Conductivity - Ensures fast and efficient heat transfer.
- Durable and Long-Lasting - Made from high-quality materials to extend lifespan.
- Fast Heating and Recovery - improves work efficiency and precision.
- Easy to Replace and Install - Hassle-free maintenance and convenience.
- Multiple Tip Shapes Available - Suitable for different soldering applications.
