

FEATURES

- **Flush cut design:** Provides clean and precise cuts, reducing the need for additional finishing.
- **High carbon steel jaws:** Offers enhanced durability and maintains sharpness over time.
- **Bi-material dolphin handle:** Ensures a comfortable grip, reducing hand fatigue during extended use.
- **ESD safe:** Protects sensitive electronic components from electrostatic discharge.
- **1.3 mm maximum cutting capacity:** Suitable for a variety of wire sizes, enhancing versatility.
- **138 mm overall length:** Compact size for easy handling and storage.

RS PRO Flush Cutter, High Carbon Steel Jaws

RS Stock No: 616-316

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Flush Cutter is designed for precision cutting in electronic applications. With high carbon steel jaws, this tool ensures durability and sharpness, making it ideal for cutting wires and small components with ease.

General Specifications

Application	Electronic Applications
Cut Type	Flush
Handle Material	Bi-Material Dolphin
Height Safe	No
Jaw Material	High Carbon Steel
Product Type	Flush Cutter
Sub Type	Flush Cutter

Protection Category

ESD Safe	Yes
Non-Sparking	No
VDE/1000V Approved	No

Mechanical Specifications

Maximum Cutting Capacity	1.3 mm
Overall Length	138 mm

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, IEC 61340-5-1, REACH, RoHS
