

Features

- The RS PRO SYSTEM PRO1, thanks to its most compact size is easy to transport and is ideal for work in hard-to-reach places.
- The multitude of different modules (chests, drawers, organizers, modular boxes) allows you to create extensive and mobile sets. The SYSTEM PRO1 line also offers protection against water and dust at the IP54 level
- The black boxes are made of recycled polypropylene, the boxes' bodies have places dedicated to knurls, and depending on the user's preferences, they can be used to expand the system with customization accessories.
- Waterproof and dustproof
- Modularity and compatibility
- Compact size

RS PRO 500 Expert – SYSTEM PRO1

RS Stock No.: 652740

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO SYSTEM PRO1 500 EXPERT is the smallest representative of the new generation of professional tool boxes. This line is distinguished by the unique function in this class of connecting two boxes together using polyamide connectors and a flexible seal ensuring full resistance to water and dust penetration. The Expert organizer located in the box lid, thanks to adjustable partitions, will allow you to organize both small and long workshop accessories.

Side connectors that allow easy connection with other modules from the rest of SYSTEM PRO1 line.

A solid aluminum handle, polyamide fasteners and side connectors, and a polycarbonate transparent organizer guarantee many years of trouble-free operation.
