

FEATURES

- **Durable Polypropylene Construction:** Provides robust protection and longevity in industrial environments
- **5-Lock Capability:** Allows multiple workers to lock out a single valve, ensuring collaborative safety measures
- **8 mm Shackle Diameter:** Compatible with a wide range of valve sizes, offering versatile application
- **Bright Red Colour:** Enhances visibility, making it easy to identify locked-out equipment
- **ISO 9001, ISO 14001, OHSMS 45001 Certified:** Meets international standards for quality, environmental management, and occupational health and safety

RS PRO 5-Lock Valve Lockout, 8 mm Shackle Diameter

RS Stock No: 710-524

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 5-Lock Valve Lockout is designed to ensure the safety and security of industrial valve systems. Made from durable polypropylene, this gate valve lockout is ideal for preventing accidental operation during maintenance or repair work. Its primary benefit is enhancing workplace safety by securely locking out valves, thus preventing unauthorised access.
