Wiping Solutions

versatile  
linting  
absorbent

**DuPont™ Sontara®**

Engineered tough for better performance

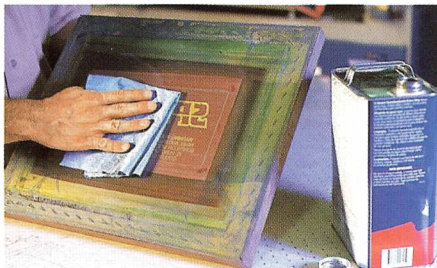

# DuPont™ Sontara® wipes. Engineered tough for

Not cloth, not  
paper. . .  
something totally  
different

Now there's a new alternative in wiping tools. . . DuPont™ Sontara® engineered-cloth wipes. Nothing beats them in all-around performance. Wet, dry or in between, DuPont™ Sontara® wipes are more versatile than cloth rags, stronger and more durable than paper, and less expensive in use than both. They're made under strict production controls for consistent quality, uniform size and packaging – all advantages you expect from DuPont.

DuPont technology  
in every wipe

DuPont™ Sontara® wipes are manufactured in a “spunlacing” process, using needle-like jets of

water to “entangle” fibres into one of the finest wiping fabrics ever made. DuPont™ Sontara® is a tough, durable material that

resists abrasion and solvents, contains no binders or glues, is low-tinting, and highly absorbent in water, oil and solvents.

Cleans up virtually  
anything

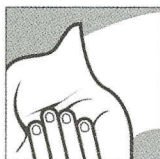

DuPont™ Sontara® wipes are ideal for many applications, including aviation, manufacturing, painting, auto and machinery repair, printing, graphic arts and more.

Everything a wipe should be

#### Tough and durable for multiple re-use

Among the Strongest – wet or dry. Can be re-used over and over. Washes easily. Inexpensive enough to treat as a disposable.

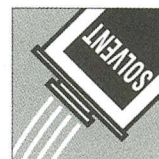

#### Absorbent and wipes dry

Soaks up to four times its weight in water. Absorbs oil and solvents. Works fast for excellent wipe-dry.

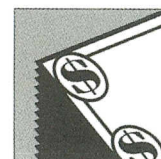

#### Low-linting

Leaves behind virtually no lint. No additives to contaminate surfaces. Soft enough for polishing and finishing.

#### Solvent-resistant

Stands up to MEK, isopropyl alcohol and other solvents or cleaning agents without falling apart.

#### Saves money

Lasts longer which means fewer wipers per task.

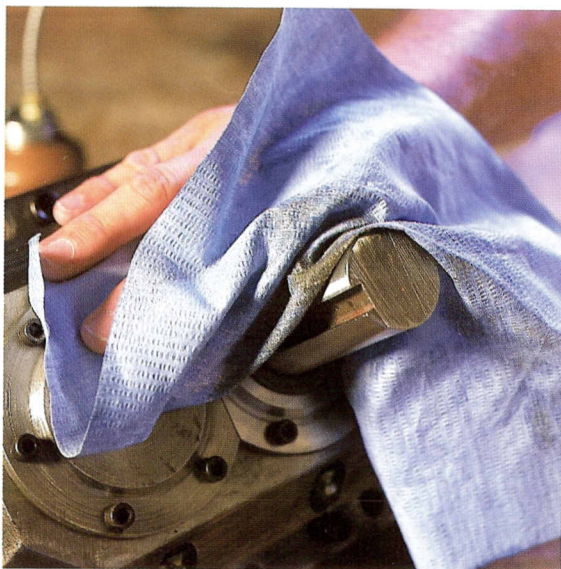

# better performance

## Consistently superior

With a box of rags you never know what you are going to get until you open it. It could contain pieces with buttons, zips or snap fasteners, or that are too large or too small.

A box of DuPont™ Sontara® wipes holds no surprises. From box to box, and wipe to wipe, every one is the same. We put the DuPont™ Sontara® brand on every wipe as your assurance of this quality.

## Better value all round

DuPont™ Sontara® wipes are affordably priced, plus they're great value. When you consider their cost with the time required to do the task, the number of wipes needed, and the performance characteristics of the wiping material – they really make a difference.

## Cleaning is believing

When it comes to performance, quality and cost effectiveness, DuPont™ Sontara® wipes are a real bargain. Call today for a sample of DuPont™ Sontara® and try it for yourself.

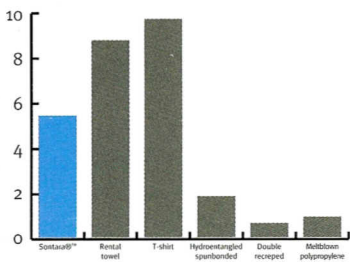

## Why Saul D Harrison?

Saul D Harrison is a licensed convertor of DuPont™ Sontara®. Adding value through converting and customising products into a wide range of folded and perforated rolls.

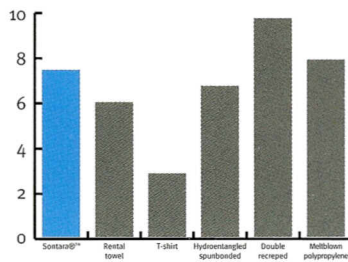

With a comprehensive range of smooth, creped and apertured fabrics, from 51 – 78gsm, DuPont™ Sontara® can satisfy the needs of almost every application and industry.
