

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **16 mm Length:** Suitable for compact installations, saving space without compromising performance.
- **22.05 mm Outer Diameter:** Ensures a precise fit for a variety of applications, enhancing stability.
- **15.98 mm Shaft Diameter Compatibility:** Offers a snug fit for standard shafts, improving operational efficiency.

RS PRO 16 mm Sintered Bronze Plain Bearing, 22.05 mm Outer Diameter

RS Stock No: 528-973

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's primary benefit is its ability to reduce friction between moving parts, enhancing the longevity of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	15.98 mm

Mechanical Specifications

Length	16 mm
Material	Sintered Bronze
Outside Diameter	22.05 mm
