

# FDMC7696 N-Channel PowerTrench<sup>®</sup> MOSFET

# FDMC7696 N-Channel PowerTrench<sup>®</sup> MOSFET 30 V, 12 A, 11.5 m $\Omega$

### Features

- Max  $r_{DS(on)}$  = 11.5 m $\Omega$  at V<sub>GS</sub> = 10 V, I<sub>D</sub> = 12 A
- Max  $r_{DS(on)}$  = 14.5 m $\Omega$  at V<sub>GS</sub> = 4.5 V, I<sub>D</sub> = 10 A
- High performance technology for extremely low r<sub>DS(on)</sub>
- Termination is Lead-free and RoHS Compliant

## **General Description**

This N-Channel MOSFET is produced using Fairchild Semiconductor's advanced Power Trench<sup>®</sup> process that has been especially tailored to minimize the on-state resistance.This device is well suited for Power Management and load switching applications common in Notebook Computers and Portable Battery Packs.

### **Applications**

- DC/DC Buck Converters
- Notebook battery power management
- Load Switch in Notebook

### MOSFET Maximum Ratings T<sub>A</sub> = 25 °C unless otherwise noted

Symbol	Parameter			Ratings	Units	
V <sub>DS</sub>	Drain to Source Voltage			30	V	
V <sub>GS</sub>	Gate to Source Voltage		(Note 4)	±20	V	
I <sub>D</sub>	Drain Current -Continuous (Package limited)	T <sub>C</sub> = 25°C		20		
	-Continuous (Silicon limited)	T <sub>C</sub> = 25°C		38	•	
	-Continuous	$T_A = 25^{\circ}C$	(Note 1a)	12	Α	
	-Pulsed			50		
E <sub>AS</sub>	Single Pulse Avalanche Energy		(Note 3)	21	mJ	
P <sub>D</sub>	Power Dissipation	$T_{C} = 25^{\circ}C$		25	14/	
	Power Dissipation	$T_A = 25^{\circ}C$	(Note 1a)	2.4	W	
T <sub>J</sub> , T <sub>STG</sub>	Operating and Storage Junction Temperature Range			-55 to +150	°C	

### **Thermal Characteristics**

$R_{\theta JC}$	Thermal Resistance, Junction to Case	5.0	°C/W
$R_{\thetaJA}$	Thermal Resistance, Junction to Ambient (Note 1a	) 53	C/W

### DISCLAIMER

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

LIFE SUPPORT POLICY FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

As used here in:

- Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user.
- A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness

### ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our external website, www.Fairchildsemi.com, under Sales Support.

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufactures of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed application, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from Fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handing and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address and warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.

### **PRODUCT STATUS DEFINITIONS** Definition of Terms

Datasheet Identification	Product Status	Definition		
Advance Information	Formative / In Design	Datasheet contains the design specifications for product development. Specifications may change in any manner without notice.		
Preliminary	First Production	Datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design.		
No Identification Needed	Full Production	Datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve the design.		
Obsolete	Not In Production	Datasheet contains specifications on a product that is discontinued by Fairchild Semiconductor. The datasheet is for reference information only.
