

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ideal for demanding environments
- **3/4 in Length:** Suitable for a wide range of applications, offering versatility in design
- **0.56 in Outside Diameter:** Ensures compatibility with standard housing dimensions
- **0.43 in Shaft Diameter:** Designed for optimal fit and function with compatible shafts

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-103

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a robust plain bearing designed for smooth and efficient rotational movement. Crafted from sintered bronze, this bearing is ideal for applications requiring low friction and high wear resistance. Its compact design ensures easy integration into various mechanical systems, enhancing performance and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.43 in

Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.56 in
