

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long service life.
- **1 in Length:** Suitable for accommodating various shaft lengths, offering flexibility in design.
- **0.75 in Outside Diameter:** Compact size allows for easy integration into existing systems.
- **0.49 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance and reduced vibration.

**RS PRO 1 in Sintered Bronze Plain Bearing,
0.75 in OD**

RS Stock No: 528-181

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion control. Its primary use is to support and guide rotating or sliding shafts, reducing friction and wear. The sintered bronze construction ensures durability and excellent performance in various industrial environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	0.75 in
