

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring a long service life.
- **3/8 in Length:** Suitable for compact applications where space is limited.
- **0.62 in Outside Diameter:** Offers a stable fit within housings, reducing vibration and noise.
- **0.49 in Shaft Diameter:** Compatible with standard shaft sizes for easy integration.

RS PRO 3/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-105

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a high-quality plain bearing designed for smooth and efficient motion in various mechanical applications. This plain bearing is crafted from sintered bronze, providing excellent durability and resistance to wear. Ideal for use in environments where lubrication is minimal or absent, it ensures reliable performance and longevity.
