

# Scotch-Brite™ 13

## Multi Purpose Wiping Cloth

### Technical Data

**TD 222. Date : October 2000**  
**Supersedes : April 2000**  
C.Couesnon

#### **DESCRIPTION**

**Scotch-Brite™ 13 Multi Purpose Wiping Cloth** is a wiping material made from a blend of synthetic fibers, which are needle-tacked and coated on both sides with a latex layer.

The product is designed to be economic at use in the professional cleaning market.

#### **PRODUCT BENEFITS**

- Usable damp or wet = versatile.
- Washable up to 95°C.
- Resists autoclave, especially for hospital maintenance.
- Remains soft and flexible when dry.
- Absorbent material.
- Available in 4 colors.

#### **DIRECTIONS FOR USE**

1. Rinse the wipe with warm water before first use.
2. Fold by the half, 3 times and wipe the surface to clean.
3. Rinse/wash in clear warm water or machine-wash.
4. Squeeze water and let dry.

#### **WHERE / WHEN TO USE**

Use for the routine maintenance of a variety of surfaces including glasses, mirror, windows, plastic laminates, stainless steel, chrome, aluminum, ceramic, enamel...

The wipe is used with current detergent cleaners.
