TAPS AND RENOVATION ACCESSORIES, WASHING MACHINE

BRACKETS

Bracket partition for taps

This bracket allows junction of a garden tap, without pipe, nor visible fitting, on all supports.
Aesthetical, the bracket hides the hole of the pipe inlet.
Perfect holding of the bracket is done with three screws.
The pipe is completely protected from UV.
Removable bracket, adaptable to all types of fittings for PER:
- screwed fitting
- crimped fitting
- sliding fitting
- instantaneous fitting for Copper (Gripp seal)

ref. code 006513
